BSCS COMSATS University Islamabad, Vehari Campus

Sept 2021 – June 2025

- **Coursework:** Programming Fundamentals, Object-Oriented Programming (C++), Database Systems, Software Engineering Concepts, Web Technologies, MERN Stack Development, Artificial Intelligence, Machine Learning

Projects

Netflix Clone

[Github Repo](#) 

- Developed a full-stack Netflix-style application featuring user authentication, movie categories, and a personal "My List" feature.
- Tools Used: Technologies: HTML, CSS, JavaScript, EJS, Node.js, Express, MongoDB

Spotify Clone

[github Repo](#) 

- Building a Spotify-inspired music interface with responsive layout and interactive UI components.
- Technologies: HTML, CSS, JavaScript

Personal Portfolio

[View Online](#) 

- A fully responsive personal portfolio website built with HTML, CSS, and JavaScript. Showcases projects, technical skills, and contact information, featuring smooth animations, clean layout, and a dark/light mode toggle for better user experience.
- Technologies: HTML5, CSS3, JavaScript.

WebChat Interface

- A modern real-time chat application built with React.js and styled using Tailwind CSS and CSS3. Features include user and admin dashboards, group messaging, file sharing, and a glassmorphism UI inspired by a Figma design, with a responsive red-blue gradient theme.
- Tools Used: React.js, CSS3, Tailwind CSS

[Github Repo](#) 

Portfolio Website

- Designed and deployed a personal portfolio to showcase skills and projects with dark/light theme toggle and responsive layout.
- Technologies: EJS, CSS
